9U Wall Mount Server Rack

eWit Wall Mount Enclosures are specifically crafted for use in small networking, home applications, audio-video setups, telecommunications, and laboratory environments. These enclosures are made from high-quality CRCA steel, and are precision-engineered using CNC programming. The manufacturing process includes punching, bending, welding, and powder coating to ensure superior quality and durability.

Fetures:

- Conforms to DIN 41494 OR equivalent ISO Standards
- Depth adjustable mounting slots
- Adjustable 19" equipment mounting verticals provide better mounting flexibility and maximizes the usable mounting space
- Precision engineering capabilities and best efficient software configuration product technology provide the best product quality and fastest delivery in the industry
- Provision to mount cooling fans on the top panel
- Top and bottom Panel with ventilation and cable entry facility
- Powder coated finish with pretreatment process meeting all industry standards
- Grounding and Bonding Options. 100% assured compatibility with all equipment conforming to DIN 41494 (General industrial standard for equipment)

Specification:

Rack Standard	Conforms to DIN 41494 or equivalent standard
Construction	Welded
Front Door	Front with Toughened Glass Door & Lock
Equipment Mounting	DIN Standard Slots
Basic Frame	Steel
Mounting Angle	19" Mounting angles made of formed steel
Top and Bottom Cover	Welded to Frame, Vented and
Standard Finish	Powder Coated Color
Standard Color	Grey
Static Load	40 kgs
Country of Origin	India
Protection Grade	IP67
Certification	ISO, CE, FC, IEC

Model No	Description	Width	Height	Depth
EW-09001RU	9U Wall Mount Server Rack	550mm	400mm	500mm
